

# Client Guide

Everything you need to know about using the app.

---

Everything you need to know about using the app.

---

## 1. Home Screen

Your home screen shows your assigned plans and quick actions.

- **Diet Plan card** — tap to see your full meal plan
  - **Workout card** — tap to see today's exercises
  - **Stats** — your current weight and check-in count
  - **Quick buttons** — Daily (log food), Weekly (photo check-in), Body (measurements)
- 

## 2. Onboarding

When you first join, your coach will ask you to fill out a questionnaire. This helps them build the perfect plan for you.

# Step 1: Profile

Basic info — name, age, height, city, current weight.

## Step 7: About You

Weight history, coaching style preference, biggest struggle, cooking comfort, motivation, and anything else your coach should know.

The screenshot shows a mobile app interface for a form titled "Let's Get to Know You" (Step 7 of 7). The form is titled "About You" and contains several sections with text input fields and multiple-choice options. The sections are: "Weight history (since age 20)" with a text field; "What coaching style works best?" with options "Strict accountability", "Flexible guidance", "Just a clear plan", and "Other"; "Biggest reason you haven't achieved your goal yet?" with a text field and a note "Be honest — this helps your coach help you."; "Cooking comfort?" with options "Cook regularly", "Cook occasionally", "Mostly outside food", and "Other"; "Why do you want to achieve this goal now?" with a text field; "Vacation/holiday plans?" with a text field; and "Anything else your coach should know?" with a text field. At the bottom of the form are "Back" and "Submit" buttons. The app's bottom navigation bar includes icons for Home, Diet Plan, Data, Workout, Weight, and Body, with "Diet Plan" currently selected. The app name "DESISQUATS" is visible in the center of the navigation bar.

### ■ Tips

- Be honest — your coach uses this to build a plan you'll actually enjoy
- Every question with options also has an "Other" field where you can type your own answer
- You can update your answers anytime from your Profile page

## 3. Diet Plan

Your coach assigns you a personalized diet plan. Tap **Diet Plan** in the bottom nav to see it.

Each meal shows:

- **Category badges** (CARB, PROTEIN, FIBER, COMPLETE) — what type of food
- **Dish options** — tap-friendly rows with emoji, name, and calories
- **"or"** between options — you pick one from each category

The macro summary at the top shows your daily targets (calories, protein, carbs, fat).

## 4. Daily Check-in

This is where you log what you actually ate today. Tap **Daily** in the bottom nav.

For each meal:

1. **Select the dish you ate** — it highlights in gold when selected
2. **"Other"** — if you ate something not on the plan, tap Other and type what it was + calories
3. **"Skip"** — if you skipped that component entirely

Also enter your **weight** at the top (optional but helpful for tracking).

When done, tap **Submit Check-in**. Your coach will see exactly what you ate, your macros, and your adherence score.

You can update your check-in anytime during the day — just come back and change your selections.

---

## 5. Workout

Your coach assigns you a workout plan. Tap **Workout** in the bottom nav.

- **Day tabs** at the top — switch between workout days (e.g., Squat Focus, Bench Focus)
- **Exercise cards** — each shows the exercise name, sets, reps, rest time, and notes
- **Watch Demo** links — tap to see a video of the exercise
- **Summary** at the bottom — total exercises, sets, and estimated time

## 6. Weekly Check-in

Once a week, submit progress photos and your weight. Tap **Weekly** in the bottom nav.
